

THE BIN TRAILER EXCLUSIVE SERIES 2026 PRODUCT LINEUP

PERFORMANCE WITHOUT COMPROMISE – ENGINEERING HIGH-RELIABILITY SANITATION ASSETS.

thebintrailer.com

Overview: Single Cold & Double Hot Series

THE VISION: RECURRING INCOME POTENTIAL

AVERAGE SERVICE VALUE: \$50/VISIT

The sanitation industry offers immediate profitability through high-density residential routes. Every home represents a recurring revenue source.

The business model relies on route density, growing street by street to maximize efficiency.

Your Brand.
Your Business.
Your Identity.

BUILT FOR SCALE AND RELIABILITY

Whether launching a single-unit startup or scaling a massive fleet, our manufacturing process ensures absolute consistency.

We deliver turnkey assets ready for deployment on Day 1. No backyard builds—just industrial-grade manufacturing.

SINGLE COLD SERIES

THE SMART STARTUP SOLUTION

Ideal for new entrepreneurs and focused residential routes.

Technical Specs:

- Pressure: 4,000 PSI Cold-Water system
- Engine: Honda GX with Electric Start
- Capacity: 275-gallon Aluminum Tank
- Chassis: Single-axle, compact footprint designed for residential navigation

MSRP: \$29,999

PROMO PRICE: \$27,999

DOUBLE HOT SERIES

THE INDUSTRIAL POWERHOUSE

The gold standard for established professionals and high-volume commercial scaling.

- Sanitization: Beckett Oil Burner (200°F+) dissolves grease instantly
- Capability: Dual Hot & Cold water systems
- Chassis: 11x6 Heavy-Duty Double-Axle trailer (7,000 lbs rating)
- Stability: Electric Brakes included

MSRP: \$49,999

PROMO PRICE: \$42,999

OPERATIONAL COMPARISON: CHOOSING YOUR ASSET

SINGLE COLD STRATEGY

- Maximizes fuel economy and towing ease.
- Best for daily residential maintenance.
- Agile single-axle for tight neighborhood turns.

DOUBLE HOT STRATEGY

- Essential for commercial dumpsters and restaurants.
- Grease removal requires 200°F heat.
- Dual-axle stability for heavy water loads.

Fleet Strategy: Combine models to handle both residential density and commercial power needs.

PROPRIETARY TECHNOLOGY: THE SMART LIFT SYSTEM

Proprietary Engineering:

The Smart Lift system auto-balances bin weight during the cycle. This critical feature reduces operator physical strain and doubles daily efficiency, regardless of the model chosen.

THE 'ROLLING BILLBOARD' ADVANTAGE

MARKETING INTEGRATION

Large flat aluminum panels are designed specifically to maximize brand visibility.

INCLUDED VALUE

Choice of 3 Professional Standard Wrap Designs included in the price.

CUSTOMIZATION

Premium bespoke branding is available to match your fleet identity.
