## THE OPPORTUNITY

Every home on a residential route pays \$45-\$60 per visit — 2 to 3 bins, ~5 minutes

\$50 average per visit. Two to three bins, five minutes per stop. Build route density street by street — 100 recurring clients = \$5,000/month in predictable revenue.

## HOW IT WORKS

Financing structures your monthly payment below your route revenue from the very first month — the business pays for itself while it grows.

Model	Promo Price	Monthly (60mo)	Apply
Single Cold Series	<b>\$28,999</b>	<b>\$592/mo</b>	thebintrailer.gogc.com
Double Hot Series	<b>\$44,999</b>	<b>\$904/mo</b>	thebintrailer.gogc.com

### FLEET STRATEGY

Combine both models to maximize residential density and commercial volume

Single Cold — Residential density.

Maximize stops per hour in suburban neighborhoods. Multiple units across zip codes delivers exponential route growth.

Double Hot — Commercial volume.

Serve HOAs and property managers at high volume. More bins per stop, higher ticket size, faster scaling.

*Operators combining both models consistently achieve 2-3x revenue growth within 12 months of deploying their second unit.*
